

Market Linked GIC

low risk, big reward

The security of a standard GIC, but the potential to earn more. OPPACU Market-Linked GICs are the answer.

Two options available to fit your portfolio:

The image displays two 3-year term Market-Linked GIC options. Each option is represented by a grey square with a white '3' on a black background, indicating a 3-year term. The 'FINANCIAL' option is shown in a yellow box, and the 'GLOBAL' option is shown in a blue box. Both options list their minimum and maximum returns and the companies or sectors they are linked to.

Option	Term	Min Return	Max Return	Linked to
FINANCIAL	3 Year Term	1%	8%	8 recognized Canadian financial industry businesses such as Bank of Montreal, Scotiabank and Manulife Financial
GLOBAL	3 Year Term	3.5%	9%	20 major companies from various sectors all over the world; Industry and geographic diversification

Why add MLGICs to your portfolio?

Want to protect your capital and enjoy good returns? Market-linked guaranteed investments are as safe as guaranteed investment certificates and term deposits, making them the perfect solution!

The main advantage of market-linked guaranteed investments is that their returns are variable and may exceed the posted rates. Returns aren't known ahead of time because they're based on market performance. Market-linked guaranteed investments offer security, returns and flexibility in one investment.
